New York support for Justice

MEMBERS of Liverpool's New York Supporters club handed over a cash donation to Hillsborough justice campaigners before last month's home game with Southampton.

Reds fan Sean Woods handed a cheque of £400 to justice campaigner John Ahearne after a series of fundraising events held by Liverpool followers across the Atlantic.

Meanwhile, the Hillsborough Justice Group are calling on all Reds fans to boycott the final away game of the season at Hillsborough on May 8.

They also want Liverpool's directors to join the boycott in protest against Sheffield Wednesday's refusal to place a memorial to the disaster at their ground.

However, while the plans to boycott Hillsborough are gathering momentum we'd like to print the views of more Liverpool fans on this subject.

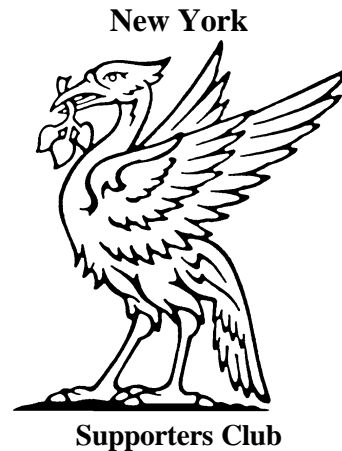

What do you think? Do you have any reservations about a Hillsborough boycott or are all Liverpool fans universally behind this idea?

Write and let us know at the usual address and we'll ensure your opinions on this vital issue are heard!

From The Kop magazine, February 1999
